Dear Mayor David Miller:

Further to our personal meeting, I am writing to you to request your support and the City of Toronto's assistance, with respect to a proposal at 207 New Toronto Street, Ward 6, regarding a cement batching/salt and sand storage facility for this location.

On December 1, 2004, a stop work order was issued regarding a building being constructed for this purpose with out a permit. Currently various city staff and departments are investigating my inquiries and complaints expressed by my constituents on the proposed use and intentions by the applicant for this premise.

I do not support the proposal and use for this location, and area residents are adamantly opposed as well. I am trying to arrange for a community consultation meeting in the future, for area residents to express their concerns and to hear from the applicant and city staff, with respect to any avenues and recourse we have to this proposal.

Any assistance that your office can provide myself and constituents of Ward 6 would be greatly appreciated.

Sincerely yours,

Mark Grimes
