

SKATEBOARD PARK: Great idea, BAD location!

The City of Toronto plans to build a \$2.5 million dollar Skateboard Facility and Skating Track at Colonel Sam Smith Park, south of the Power House in SEPTEMBER 2006.

- Does a skateboard park belong in one of our city's few naturalized green spaces, among wetlands, open meadows, wildlife habitats and secluded trails?
- How will the safety and security of our children using this facility be properly monitored in such an isolated location?
- Our community needs the opportunity to give input regarding the best location of a \$2.5 M skate park.
